

## Chinese New Year Staff Lunch

All TMC staff gathered together on the 3rd February 2016 for the annual Chinese New Year celebration. The school treated all staff with a sumptuous buffet lunch! The God of Fortune also made a special appearance at TMC Academy to bless everyone with good health, luck and wealth!

## CNY Alumni Reunion Lunch

On 20th February 2016, TMC Alumni members gathered at Dr Chin's home for the Chinese New Year Reunion Lunch gathering. Every year without fail, the TMC Alumni Executive Committee will organise this reunion event for alumni members to come together to celebrate this joyous occasion. It has become a tradition and will continue to go on for many years to come.

Alumnus who came for this event included those who have long graduated and currently working, as well as those who have married and even brought their spouse and children! For some of the alumni members who are fresh graduates, it was their very first Alumni event! The alumni committee looks forward to meeting more alumni members in the upcoming events!

## 3D Modelling and Design Workshop

The public and TMC Alumni attended the 3D modelling and design Workshop at TMC Academy Singapore on 1st March 2016 conducted by our IT lecturer, Mr. Chiew Chin Pheng. This workshop provided attendees with a hands-on practical experience in 3D modelling using 3Ds Max software. The participants had an enriching and rewarding learning experience and were delighted to learn and gain hands on practice. Participants were exposed to 3D computer graphics, production workflow of 3D modelling, application of basic geometry primitives and polygon modelling. They were able to create a 3D model starting from sketch using 3DsMax. The participants were very enthusiastic in knowing more about the IT courses delivered in TMC.

## Moot Court Session

On 29 February 2016, after weeks of preparation, two teams of hot shot lawyers in training had a showdown in TMC Academy's moot court.

The face off was between the ladies, comprising Choo Wan Chia and Putri Nur Azreen, and the gentlemen, Bat-Enerel and Mang Zheng Hau. They had two cases to argue; the first was the liability of a home owner when his dog bit a young child who trespassed into his premises, the second was whether a disappointed consumer was entitled to be compensated when slimming pills she had purchased and consumed failed to work its miracle, and instead caused her body to balloon.

Mr Alexander Dibble, ably assisted by Mr Jasmani bin Jalil, judged the mock trials.

It was an event enjoyed by all participants. The law students look forward to more sessions of mooting in the future.

## Contextualising Health Psychology

Health psychology is a relatively young field, but one which has made a number of important discoveries. Health psychologists utilise the knowledge of psychological factors and the role they play in health and illness to support overall good health and those who are ill.

Dr Kimberley Hill is a Chartered Psychologist and Lecturer in Psychology, who teaches and leads a number of undergraduate and postgraduate modules at The University of Northampton. Dr Hill is an expert in mixed methods research and holds a PhD in Psychology, a Masters in Psychological Research and a First Class BSc in Psychology with Honours. She sits on a number of professional committees including the Social Psychology Section of the British Psychology Society and The European Society for Prevention Research. Kimberley is also a National STEM Ambassador, Associate Fellow of the Higher Education Academy, a member of the Division of Health Psychology and the Division of Academics, Research and Teachers in Psychology.
